

Industrial Threaded Products Inc.

Servicing the Central Valley  
since 1999

# Industrial Threaded Products Inc.

## Screws

Whether your application is wood-based, pre-drilled, or needs to be pierced, ITP can meet your needs. We have the largest and most diverse mix of screw product applications in the fastener industry.

### Product Summary

- Distributor of over 35 different brands and styles
- Hold for release and direct import programs available for volume items
- Specialty plating and secondary processes available

## Rivets

ITP procures generic and branded rivets. Let your ITP sales representative know your required application and have our almost 35 years of fastener experience work for you.

### Product Summary

- Distributor of over 15 different brands and styles
- Hold for release and direct import programs available for volume items
- Specialty packaging and platings available

## Washers

ITP sells USS, SAE, and Fender washers. We also provide special and critical tolerance washers at competitive prices by utilizing our diverse supply chain of local and international stamping factories.

### Product Summary

- Stocking Diameter Range: 1/4" through 2"
- Custom stampings available
- Multiple materials and finishes available

## Socket Products

ITP maintains a diverse stock of socket products in standard lengths and finishes. We also provide domestic sockets, special short run production, and critical secondary work such as drilling, plating, painting, and patching.

### Product Summary

- Distributor of Import and Domestic socket products
- Hold for release and direct import programs available for volume items
- Specialty plating and secondary processes available
- High tolerance/high quality manufactured QC sources available

## Hex Lags & Carriage Bolts

Hex lags and carriage bolts are typically used with timber or “wood to wood” applications. Refer to the product chart and utilize ITP’s complete inventory of diameters, lengths, and finishes to meet your needs.

### Product Summary

- Stocking Diameter Range: 1/4” through 1”
- Stocking Finishes: Plain, Zinc Plated and HDG
- Specialty lengths and finishes available

## Wire Products

From cotter pins to hold an assembly in position to hardened alloy dowels for a hinge or shaft, whatever your critical application, ITP will find the right part for you. We work with hundreds of suppliers and have the depth of knowledge to source your needs.

### Product Summary

- Experienced staff and resources to identify standard and non-standard parts
- Numerous materials and finishes available upon request

## Waterworks

ITP stocks 2” through 30” flange kits in various materials. Larger flange sizes are available upon request.

### Product Summary

- Over 15 different gasket materials in Ring and Full Face, 1/16 and 1/8, always in stock
- Custom bolt lengths also available

## Vendor Managed Inventory

ITP’s Vendor Managed Inventory programs are designed to incorporate the principles of lean manufacturing into inventory management and replenishment. Our programs offer a variety of different methods to help reduce costs by eliminating non value-adding activities from your production process.

### Product Summary

- 15 years of experience in inventory management systems
- KAN/BAN, consignment space inventory, and bin stocking programs available
- Custom design programs available

# Hex Bolts

ITP offers hex machine bolts and cap screws stocked in 1/4" through 1 1/2" diameters in A307 Grade A plain, zinc, and hot-dipped galvanized. Other stocking materials include ASTM A307 Grade B, T304 and T316 stainless steel, Grade 5, and Grade 8 materials. ITP stocks larger diameters as well and procures them regularly per customer request.

## PRODUCT SUMMARY

- Stocking diameter range: 1/4" through 1 1/2"
- Multiple materials and finish
- Application support and certification of conformance with all material
- Most diverse bolting inventory available

# All Thread Rod

ITP is the largest importer and distributor of threaded rod in the Western United States, stocking over 100 different sizes in varying diameters from 1/4" to 1 3/4" plain, zinc, plated, and hot-dipped galvanized. We offer value-adding services for threaded rods such as cutting, marking, painting, and chamfering.

## PRODUCT SUMMARY

- Standard lengths from 10" to 144"
- Cutting/fabrication of special lengths available
- Domestic Rod Production
- Import Brokerage volume options available
- Stud sets with special packaging / assembly requirement
- Steel, Alloy, Stainless, and domestic material in stock

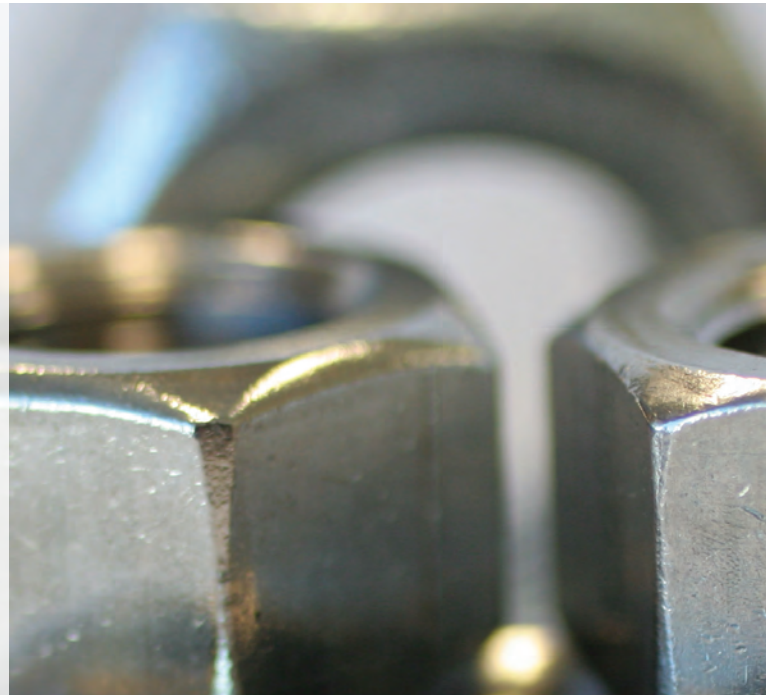

# Hex Nuts

The strength of ITP's bolting inventory is a large and comprehensive selection of hex nuts. ITP inventories nearly every diameter, from #2 to 2 1/2", in various materials and finishes. Other specialized products are offered for specific needs, such as wing nuts for finger adjustment and captive nuts for inaccessible areas.

## PRODUCT SUMMARY

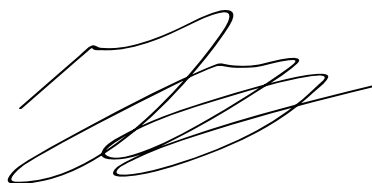

- Stocking Diameter Range: #2" through 2 1/2" in multiple materials and finishes
- Construction, OEM Assembly, MIL-SPEC, and critical application parts available
- Expert sourcing capabilities to ensure quality

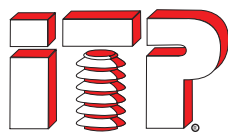

**V**alues matter to us. So do our customers, because when values matter, the benefits of business fall to them. At Industrial Threaded Products, our focus is the long-term interests of our customers and the industries they serve delivered to them with experience, loyalty, and service. Our promise is that through these values we support our customers so that the best resources from across our organizations can work together to deliver the right solutions, so that their innovation is matched by our confidence in their vision.

Please allow us to present our organization, where we believe not only in a product but also in the heart behind it. It is our privilege to partner with you.
